TO WHOM IT MAY CONCERN

It gives us great pleasure to write this reference for Adam from Wahoo Pools.

After making the big decision to put a pool into a rear yard we spent a few months getting quotes from various companies. Most of the companies were very large and most well known. After discussing with the initial salesman who was in control of the pool building it seemed like with most of them that it was a never ending game of "pass the buck". All they could tell us was that there were various people in control of each stage of the job, but not the one person over seeing the whole pool project. This concerned us.

Before making our final decision we decided to go and view the work of all the pool companies. After inspecting the other pool companies work they did not score a rating with us. We walked in and viewed three of Adam's pools and his work speaks for itself, it was outstanding. Adam is a true creative builder. His pools are with out doubt the best we have seen, and he always makes suggestions to make your pool 'unique'.

Not only did his pools show us he was the man for the job, we were also impressed from day one that he was in full control of the job from start to finish. At all times if there was anything we needed to discuss we could contact him on his mobile phone 24/7 and he would be fully aware of what was going on.

We were so impressed with Adam and his company that no only did we use him to create our dream pool which has been our summer escape. He also laid us a new sandstone driveway, laid limestone in our home and bathrooms, built sandstone pillars at our front gate, laid stone as stepping stones to the pool and repaired our fireplace. Nothing was too much for Adam and his team at all times he was happy to oblige with what we wanted to do.

If you are looking for a fantastic pool builder look no further you have found him. Adam is no longer considered our pool builder we now consider him our friend.

Please do not hesitate to contact us (02 9918 8868) if you would like to discuss anything. Please also feel free to inspect our pool and see the fantastic work yourself.

Regards
